Ward, a minister who emigrated from England to Massachusetts in 1639, wrote The Simple Cobler in response to the growing religious and political tensions in the colony. Ward's writing is characterized by its wit, satire, and sharp wit. He is not afraid to speak his mind, and he does not hesitate to criticize those who he believes are leading the colony astray.

For example, in his essay "Of Government," Ward argues that the best form of government is a theocracy, in which the laws are based on the Bible. He also criticizes the growing trend towards democracy, arguing that it will lead to chaos and disorder.

In his essay "Of Education," Ward emphasizes the importance of education for both boys and girls. He believes that education is essential for a well-rounded individual, and he argues that it should be available to all, regardless of their social status.
